

Claude Marcoux

Senior Vice-President and General Manager, Quebec

A member of CGI since 1983, Claude Marcoux today holds the position of Senior Vice-President and General Manager for the company's operations in Quebec.

Mr. Marcoux leads more than 4,500 professionals in Quebec who work in systems integration, consulting, payroll services and outsourcing. He is also a member of CGI's Management Committee.

During his 25-year career with CGI, Mr. Marcoux has worked in all areas of the company. Prior to being appointed to his current position, he was responsible for the management of systems integration and consulting services in Quebec as well as for the management and growth of the Quebec City business unit. Under his leadership, this business unit experienced annualized growth of 20% from 1996 forward.

Mr. Marcoux has long been active in his community. From 1999 to 2005, he sat on the board of directors of the Société d'Arthrite du Québec and Forces Avenir. Since 2007, he has been a member of the board of directors of CIA - Conseillers en informatisation d'affaires. Over the years he has also participated in many fundraising campaigns for a variety of charitable organizations. He is currently co-chair of the fundraising campaign for the Fondation du Cégep Limoilou and a governor of the Fondation de l'Implant cochléaire.

Mr. Marcoux holds a Bachelor of Business Computing degree from Université Laval de Québec in Quebec City.

CGI profile

Founded in 1976, CGI is among the largest independent information technology (IT) and business process services firms in the world. CGI and its affiliated companies employ approximately 27,000 professionals based in over 100 offices in 16 countries. CGI provides end-to-end services to clients worldwide, utilizing a flexible and cost efficient delivery model that combines on-site and off-site operations.

Services and capabilities

From providing consulting and systems integration services to managing IT and business functions on behalf of our clients, CGI provides an all-encompassing offering that includes the planning, design, implementation and management of highly effective IT environments. Our global delivery capabilities include onsite, home-shore, near-shore and off-shore options, giving our clients the flexibility to choose the model that best meets their needs.

Through our vertical expertise in financial services, government and healthcare, telecommunications and utilities, retail and distribution and manufacturing, we provide clients with a partner that is not only expert in IT, but expert in their industries. This combination of business knowledge and technology expertise allows us to help our clients adapt as their industries change, and in the process, allows us to help evolve the industries in which we operate.
