

# Eva Maglis

**Senior Vice-President and General Manager  
Technologies and Infrastructure**

**A member of CGI since 1998, Eva Maglis is currently Senior Vice-President and General Manager of the Technologies and Infrastructure business unit, including Document Management Services.**

Ms. Maglis began her career at Bell Canada before joining CGI. She has more than 25 years of experience in the information technology sector. Ms. Maglis has successfully led CGI's large data centers and many integration projects. She implemented the Information Technology Infrastructure Library (ITIL) service delivery model used by the infrastructure services for CGI and numerous clients. Prior to coming to Montréal, Ms. Maglis was responsible for the integration and consulting services in the Greater Toronto business unit.

Ms. Maglis leads more than 3,600 professionals working in Montréal, Saguenay, Halifax and Toronto.

She is also actively involved in the Centraide cause.

Ms. Maglis holds an Executive MBA from Columbia University.

## CGI profile

Founded in 1976, CGI is among the largest independent information technology (IT) and business process services firms in the world. CGI and its affiliated companies employ approximately 27,000 professionals based in over 100 offices in 16 countries. CGI provides end-to-end services to clients worldwide, utilizing a flexible and cost efficient delivery model that combines on-site and off-site operations.

## Services and capabilities

From providing consulting and systems integration services to managing IT and business functions on behalf of our clients, CGI provides an all-encompassing offering that includes the planning, design, implementation and management of highly effective IT environments. Our global delivery capabilities include onsite, home-shore, near-shore and off-shore options, giving our clients the flexibility to choose the model that best meets their needs.

Through our vertical expertise in financial services, government and healthcare, telecommunications and utilities, retail and distribution and manufacturing, we provide clients with a partner that is not only expert in IT, but expert in their industries. This combination of business knowledge and technology expertise allows us to help our clients adapt as their industries change, and in the process, allows us to help evolve the industries in which we operate.
