CGI Advantage
ERP that works for me

CGI

For organizations with high-profile, public missions looking to modernize and be positioned for the future, CGI offers its CGI Advantage ERP solution. CGI Advantage provides a simplified and intuitive user experience leveraging a mobile-first design to facilitate a seamless and responsive engagement from desktop to mobile device. Information is available where and when you need it. Designed around a role-based model, CGI Advantage helps to streamline processes for end-users – increasing productivity and enabling digital insights. Further, you are backed by the scale, reach and delivery capabilities of a global IT champion – CGI.
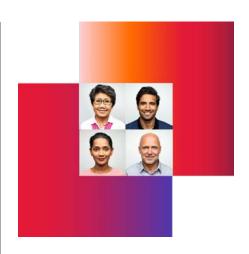

Experience

Applying a user experience that aligns with individual roles is an effective strategy for keeping employees engaged and enhancing productivity. CGI Advantage's modern and sleek user experience provides a transformed engagement that is highly configurable. You can tailor the solution to your business requirements, reducing training costs, creating a more efficient workforce and ultimately lowering the total cost of ownership and increasing employee satisfaction.

- Unified ERP
- Configurable
- Role-based and adaptive
- Responsive

Insights

The ability to access, retrieve and draw insights from data quickly is essential for a modern ERP. CGI Advantage facilitates your transition from a system of record to a system of engagement by unlocking the power of your data. The solution's modern information architecture organizes data intelligently for analysis to facilitate timely, informed decisions consistently.

- Visualized information
- Predictive analytics
- Transparency and accountability
- Data-driven policy decisions

"CGI has proven to be a trusted partner for us as we continue to use technology to improve the lives of residents, businesses and visitors across the City of Los Angeles."

Ted Ross
CIO, City of Los Angeles

Expertise

A modern solution, combined with the experience of a trusted advisor can make all the difference when it comes to maximizing the value of an ERP. CGI's local domain experts help public sector clients deliver value to citizens by providing actionable consultative solutions to revitalize ERP business processes and enhance the performance of government agencies. Our experts, coupled with the proven CGI Advantage solution, work collaboratively with you to pave the way to transforming your organization to meet the needs of today and develop a roadmap to meet the needs of tomorrow. You can be confident CGI is committed to your success, proven by our 40+ year history in public sector ERP innovation.

- Reduce risk
- Increase ROI
- Enhance productivity
- Increase compliance

Community

As a CGI Advantage client, you are part of a user community like no other. Bonded as professionals with like-minded goals and aspirations exclusive to the public sector, our clients play an integral role in the evolution of the CGI Advantage solution by sharing best practices and initiatives that support collaboration.
