

Sunflower Federal Property Management Solutions

Federal asset managers are entrusted with stewardship of our nation's assets. CGI's Sunflower solutions help Federal agencies manage complex regulatory and operational requirements to achieve mission success.

CGI Federal's Sunflower solutions provide a range of services and tools for agencies to innovatively manage their personal and real property. Sunflower also offers powerful mobile capabilities, relieving managers of the need to stay office-bound while entering or accessing data. CGI Federal brings a versatile mix of software, consulting expertise and services to meet any property management need.

level federal
agencies**

About CGI

Insights you can act on

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world. We are insights-driven and outcomes-based to help accelerate returns on your investments.

Nearly 7,000 of our experts help the U.S. federal government achieve comprehensive, scalable and sustainable IT and business goals. We enable our clients to execute digital transformation, build the federal workforce of the future, achieve operational excellence, enhance citizen engagement and protect America's assets. As the federal government faces unprecedented challenges, we remain committed to enabling its success, using our deep understanding of clients' goals and mission-essential needs to provide consultative insights and develop solutions for maximum results.

In the asset management market, CGI provides a broad portfolio of software features that manage the asset lifecycle to help clients achieve total asset visibility, improve decision-making, accountability and regulatory compliance.
