

CGI Technologies and Solutions, Inc.

APPENDIX C – PRICING INDEX

DIR-CPO-5140

Service Name	Service Description	Unit of Measure	Discount % off
Engagement Manager	Provides overall program strategy and advisory as needed. Manages and holds responsibility for entire program or project. Serves as primary contact for the engagement of delivery resources. Also serves as designated escalation point for resourcing, delivery, and scope of work.	Hour	25.00%
Project/Scrum Master	Manages and oversees alignment and collaboration across stakeholders and cross-functional teams. Provides quality assurance for all deliverables. Owns formal communications and solution tracking with client leadership team as well as documentation for project deliverables. Drives requirements gathering, discovery interviews with stakeholders, and use case discovery and prioritization.	Hour	20.00%

Service Name	Service Description	Unit of Measure	Discount % off
AI Architect	<p>Explores, validates, and finalizes key AI/CV models, designs, and architectures. Implements best practice techniques to optimize and improve performance of overall technical solution. Validates and confirms all technical assumptions, approach, and model design. Provides thought leadership and technical guidance over end-to-end design and implementation.</p>	Hour	20.00%
Lead Data Scientist	<p>Serves as technical lead for iterative design, development, and testing of modeling and algorithms. Focuses on improving model performance while balancing business requirements and tradeoffs (ex. accuracy vs latency vs cost). Leads development of custom solutions as well as supports and customizes third party products for artificial intelligence, machine learning, natural language processing, and computer vision products.</p>	Hour	20.00%

Service Name	Service Description	Unit of Measure	Discount % off
Data Scientist	Supports data modeling and algorithm design, build, testing, implementation, documentation, and training for all artificial intelligence, machine learning, natural language processing, and computer vision products. Also provides ongoing support and maintenance as needed.	Hour	15.00%
Lead Data Engineer	Serves as technical lead for analysis of data for quality, completeness, and elements required for algorithm build. Preps, parses, and flattens data for algorithm ingestion and analysis. Leads the development of data pipelines using best-in-class tools (ex. Hadoop, Spark, etc.) for artificial intelligence, machine learning, natural language processing, and computer vision products.	Hour	20.00%
Data Engineer	Supports data pipeline design, build, testing, implementation, documentation, and training. Also supports all maintenance and update activities as needed.	Hour	15.00%

Service Name	Service Description	Unit of Measure	Discount % off
Technical Analyst	Provides support for other technical responsibilities such as reporting and data visualizations, additional documentation and training, etc.	Hour	15.00%
