Forward-Looking Information and Statements

Our presentations contain “forward-looking information” within the meaning of Canadian securities laws and “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995 and other applicable United States safe harbours. All such forward-looking information and statements are made and disclosed in reliance upon the safe harbour provisions of applicable Canadian and United States securities laws. Forward-looking information and statements include all information and statements regarding CGI’s intentions, plans, expectations, beliefs, objectives, future performance, and strategy, as well as any other information or statements that relate to future events or circumstances and which do not directly and exclusively relate to historical facts. Forward-looking information and statements often but not always use words such as “believe”, “estimate”, “expect”, “intend”, “anticipate”, “foresee”, “plan”, “predict”, “project”, “aim”, “seek”, “strive”, “potential”, “continue”, “target”, “may”, “might”, “could”, “should”, and similar expressions and variations thereof. These information and statements are based on our perception of historic trends, current conditions and expected future developments, as well as other assumptions, both general and specific, that we believe are appropriate in the circumstances. Such information and statements are, however, by their very nature, subject to inherent risks and uncertainties, of which many are beyond the control of CGI, and which give rise to the possibility that actual results could differ materially from our expectations expressed in, or implied by, such forward-looking information or forward-looking statements. These risks and uncertainties include but are not restricted to: risks related to the market such as the level of business activity of our clients, which is affected by economic and political conditions, additional external risks (such as pandemics, armed conflict, climate-related issues and inflation) and our ability to negotiate new contracts; risks related to our industry such as competition and our ability to develop and expand our services to address emerging business demands and technology trends (such as artificial intelligence), to penetrate new markets, and to protect our intellectual property rights; risks related to our business such as risks associated with our growth strategy, including the integration of new operations, financial and operational risks inherent in worldwide operations, foreign exchange risks, income tax laws and other tax programs, the termination, modification, delay or suspension of our contractual agreements, our expectations regarding future revenue resulting from bookings and backlog, our ability to attract and retain qualified employees, to negotiate favourable contractual terms, to deliver our services and to collect receivables, to disclose, manage and implement environmental, social and governance (ESG) initiatives and standards, and to achieve ESG commitments and targets, including without limitation, our commitment to net-zero carbon emissions, as well as the reputational and financial risks attendant to cybersecurity breaches and other incidents, including through the use of artificial intelligence, and financial risks such as liquidity needs and requirements, maintenance of financial ratios, our ability to declare and pay dividends, interest rate fluctuations and changes in creditworthiness and credit ratings; as well as other risks identified or incorporated by reference in our presentations, in CGI’s quarterly MD&A and in other documents that we make public, including our filings with the Canadian Securities Administrators (on SEDAR+ at www.sedarplus.ca) and the U.S. Securities and Exchange Commission (on EDGAR at www.sec.gov). Unless otherwise stated, the forward-looking information and statements contained in our presentations are made as of the date hereof and CGI disclaims any intention or obligation to publicly update or revise any forward-looking information or forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law. While we believe that our assumptions on which these forward-looking information and forward-looking statements are based were reasonable as at the date hereof, you are cautioned not to place undue reliance on these forward-looking information or statements. Furthermore, you are reminded that forward-looking information and statements are presented for the sole purpose of assisting investors and others in understanding our objectives, strategic priorities and business outlook as well as our anticipated operating environment. You are cautioned that such information may not be appropriate for other purposes. Further information on the risks that could cause our actual results to differ significantly from our current expectations may be found in section titled *Risk Environment* of CGI’s quarterly MD&A, which is incorporated by reference in this cautionary statement. We also caution that the above-mentioned risks and the risks disclosed in CGI’s quarterly MD&A and other documents and filings are not the only ones that could affect us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial could also have a material adverse effect on our financial position, financial performance, cash flows, business or reputation.

Please refer to the “Investors” section of CGI’s website at www.cgi.com to consult disclosure documents used by management when discussing CGI’s financial results with investors and analysts.

All amounts are in Canadian dollars unless otherwise indicated.

Non-GAAP and Other Key Performance Measures Definitions

Non-GAAP financial measures and ratios used in this presentation: Constant currency revenue growth, adjusted EBIT, adjusted EBIT margin, net debt, net debt to capitalization ratio, return on invested capital (ROIC), net earnings excluding specific items, net earnings margin excluding specific items, and diluted earnings per share excluding specific items. CGI reports its financial results in accordance with International Financial Reporting Standards (IFRS). However, management believes that these non-GAAP measures provide useful information to investors regarding the company’s financial condition and results of operations as they provide additional measures of its performance. These measures do not have any standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other issuers and should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with IFRS. Key performance measures used in this presentation: cash from operating activities as a percentage of revenue, bookings, book-to-bill ratio, backlog, days sales outstanding (DSO), earnings before income taxes margin and net earnings margin.

The descriptions of these non-GAAP measures (and reconciliations to their closest IFRS measures) and ratios and other key performance measures can be found on pages 3, 4 and 5 of our Q3 F2024 MD&A which is posted on CGI’s website, and filed with SEDAR+ at www.sedarplus.ca and EDGAR at www.sec.gov. Reconciliations are also included in the Q3 F2024 earnings’ press release.

Note: All figures in Canadian dollars

CEO remarks

“CGI’s Q3 results reflect the disciplined execution of our plan in this dynamic macro business environment to deliver shareholder value with sustained margin expansion and increased cash from operations,” said George D. Schindler, President and Chief Executive Officer. “Robust quarterly bookings of nearly \$4.3 billion, led by managed services with a 139% book-to-bill ratio, provides recurring revenue that serves as a base to enhance our resilience in the future.”
