

Tomorrow, today.

# Embrace the digital workplace and enhance productivity

The technology we use at work is increasingly influenced by the way we consume IT at home. For the enterprise, this technology, the flexible working practices it enables combined with a tech-savvy workforce present as many challenges as opportunities.

## The wrong IT collaboration tools hold back productivity

**71%** of the workforce face challenges using their companies' older IT collaboration tools.

## The best-in-breed productivity choice

**78%** of companies use Office 365 or are planning to use it in the near future.

## Enable agile working

Access familiar office productivity applications – securely - on any traditional PC/laptop, thin client, tablet or phone from practically any location. Extend this flexibility further to virtual desktops and applications by integrating with our managed virtual end-user compute service.

## Office 365 cuts your costs

**12%**  
reduction in IT support costs for legacy systems.

**11%**  
reduction in Microsoft licencing costs.

**9%**  
reduction in third-party licence and software costs.

Our Manage & Migration Service can help you realise the benefits of Office 365 in a secure and cost-effective way. Our service takes on the management burden, freeing up your technical resources to concentrate on growing and improving your business.

### Consult

We assess your requirements, design a solution and then develop a transition strategy.

### Migrate

We carry out a smooth and secure migration, including on premise systems, Exchange/SharePoint, AD federation deployment and SSO strategy.

### Deploy

We make sure everything is ready for implementation, including building and testing your Office 365 tenant.

### Sustain

We make sure you continue to get the most out of your employee productivity service, including service level and application management.

CGI has brought modern, cloud based working environments to more than 200,000 end-users in large scale environments across government, local public sector, health, education and commercial organisations around the world.
